SUBJECT INDEX

A

Abdominal aortic aneurysms presenting as renal colic, 496
Acetohydroxamic acid inhibition of struvite crystal growth *in vitro*, 355
Actinomycosis, primary, of bladder (case report), 205
Adenocarcinoma, renal parenchymal, prognostic significance of DNA flow cytometry, 360
Alfuzosin treatment, benign prostatic hypertrophy, urinary flow rates following, 58
Aminoglutethimide, with mitomycin C, in treatment of metastatic prostatic cancer, 542
Anaesthesia
  epidural, in management of painful bladder, 503
  spinal, paraplegia following, in patient with prostatic metastases (case report), 445
Anal sphincter, electromyographic abnormalities in women with idiopathic urine retention, 22
Aortic aneurysms, abdominal *see* Abdominal aortic aneurysms
Ascites, chylous, following retroperitoneal lymph node dissection for testis cancer (case report), 688
Audit, management of high grade superficial bladder tumours, 156
Autoinjector device, intracavernosal pharmacotherapy (point of technique), 211

B

Bacteriuria screening in urological patients using reagent strips, 314
BCG, intravesical
  potential hazard for medical staff (case report), 570
  in treatment of bladder carcinoma
    articular complications (case report), 446
    following previous tuberculous cystitis (case report), 445
    outcome in carcinoma *in situ*, 271
Biopsies, renal tumour, under ultrasonic guidance, 7
Bladder
  actinomycosis, primary (case report), 205
  cancer/carcinoma
    concurrent cisplatin and radiation therapy in locally advanced cancer, 399
    intravesical BCG therapy, articular complications (case report), 446
    intravesical BCG therapy, outcome in carcinoma *in situ*, 271
    intravesical BCG therapy, in patients with previous tuberculous cystitis (case report), 445
    intravesical BCG therapy, potential hazard for medical staff (case report), 570
    management, urologists' attitudes, 522
    mortality in Netherlands 1955-1988, 46
    occupational urothelial cancer in former iron foundry worker (case report), 95
    quality of life after radical radiotherapy, 519
    small cell, in augmented bladder (case report), 572
    superficial, concurrent urothelial atypia, detection by microscopic chromocystoscopy, 152
    superficial, intravesical instillation of beta-interferon in treatment, 169
    superficial high grade, aggressive treatment, 156
    transitional cell, choriocarcinoma in (case report), 333
    transitional cell, cystoprostatectomy and substitution cystoplasty for locally invasive disease, 40
    transitional cell, prognosis, correlation of morphometric values with survival in invasive carcinoma, 628
    transitional cell, prognosis, value of nuclear area as prognostic factor in T1 papillary carcinoma, 622
    transitional cell, treatment with combination of cisplatin, methotrexate and vinblastine in locally advanced disease, 161
    treatment, audit, 156
    verrucous (case report), 96
  in cervical spondylotic spinal stenosis patients, urodynamic findings, 144
  distension, prolonged, role of, 382
  exstrophy, surgical treatment
    anterior pelvic osteotomy in, 678
    creation of continent urinary reservoirs, 558
    results in children, 683
  innervation
    loss of sensory neuropeptides in obstructed bladder, 373
    presumptive sensory nerves in detrusor instability, 370
  neck, incision, urethro-vaso-cutaneous fistula following (case report), 450
  neurogenic, columnar metaplasia complicating (case report), 98
  obstructed, loss of sensory neuropeptides in, 373
  outflow obstruction
    caused by benign prostatic hyperplasia, cold sensation and bladder instability in, 404
    indoramin treatment, comparison with prostatectomy, 408
  pain, epidural anaesthesia for, 503
  photodynamic therapy using Photofrin II and Photosan, morphological effects, 616
  reconstruction *see* Cystoplasty
  replacement with gallbladder, 269
  voiding dysfunction
    in cervical spondylotic spinal stenosis, 144
    pontine pathology and (case report), 100
  washouts/instillations in patients with long-term indwelling catheters, 610
Blood transfusion, peri-operative, effect on survival following surgery for renal carcinoma, 135
Bone metastases from prostate cancer, prostate specific antigen prediction of, 299
  correlation with bone scans, 295

Cystoplasty
  effect of ranitidine on urine mucus concentration in patients with enterocystoplasty, 30

substitution, locally invasive bladder cancer, 40
Cystoprostatectomy, locally invasive bladder cancer, 40

D

Detrusor muscle
effect of substance P, in rats with diabetic cystopathy, 390
effects of extracellular magnesium on isolated detrusor muscle function, 262
instability
cold sensation and, in patients with outflow obstruction due to benign prostatic hyperplasia, 404
increase in presumptive sensory nerves of urinary bladder, 370
mast cells in, 17
Diabetic cystopathy, effect of substance P on detrusor muscle in, 390
Dilatation of percutaneous nephrostomy tracts (point of technique), 455
Diuresis renography, recent advances and recommended protocols (Erratum), 107
Dix, Victor, obituary, 464
DNA flow cytometry, prognostic significance in renal parenchymal adenocarcinoma, 364

E

Embolisation, renal carcinoma, malignant hypertension and (case report), 95
Endoscopes, effects on eyesight
of blue light emission, 492
macular function, 488
Enterocystoplasty, effect of ranitidine on urine mucus concentration, 30
Epididymis aspiration, use of lachrymal duct probe (point of technique), 105
Epirubicin, in treatment of advanced hormone-resistant prostatic carcinoma, 641
Epispadias
continent urinary reservoirs in, 558
surgical treatment, Belgrade experience of, 674
European Society of Paediatric Urology, Abstracts of Proceedings of Third Meeting, Cambridge, 1992, 563
Extracorporeal shock wave lithotripsy (ESWL)
medullary sponge kidneys, 352
renal milk of calcium—a contraindication? (case report), 447
renal transplant patients (case report), 690
stones in caliceal diverticula, 478
ureteric stones
impacted, 252
pre-vesical, modified prone position usimg Siemens Lithostar (point of technique), 456
using Dornier HM-3 lithotriptor, 600
using Modulith SL 20, 594
Eyesight
effect of blue light emission, 492
effect of use of endoscope on macular function, 488

F

Finasteride in treatment of benign prostatic hyperplasia, urodynamic evaluation, 65
Fistulae
ureteric-anal canal, secondary to ureteric calculus (case report), 330
ureterocolic
due to impacted ureteric stone (case report), 332
due to transitional cell carcinoma of ureter (case report), 567
urethro-vaso-cutaneous, following bladder neck incision (case report), 450
Fournier's gangrene, management, 78

G

Gallbladder, as substitute for bladder, 269
Gangrene, Fournier's *see* Fournier's gangrene
Haemostasis in urology, mechanism and pharmacology (review), 225
Hydatid cysts of urinary tract, management, 258
Hydroceles, treatment, comparison of simple aspiration and tetracycline sclerotherapy, 76
Hydronephrosis
Anderson-Hynes pyeloplasty, long-term follow-up, 121
bilateral, interstitial ureteritis and (case report), 691
caused by late metastasis from ovarian tumour (case report), 97
giant (case report), 686
Hypertension, malignant, due to embolisation of clear cell renal carcinoma (case report), 95
Hyperthermia
local, in treatment of prostatic disease, studies of human prostatic cancer cell lines, 529
localised deep microwave, in treatment of benign prostatic hyperplasia, 178

I

Ileal conduit urinary diversion, effect on male and female sexual function and activity, 33
Ileal reservoir, continent, with hydraulic valve (Rome pouch), 514
Ileostomy, spout, simple technique for everting (point of technique), 454
Impotence
Autoinjector device as aid to intracavernosal pharmacotherapy (point of technique), 211
treatment
vacuum constriction devices, 81
vacuum device, 652
Incontinence
female, psychological aspects, general practice study, 499
open access Continence Resource Centre, Greater Glasgow Health Board, 395
Indoramin in treatment of bladder outflow obstruction, comparison with prostatectomy, 408
Infection

K

Kidneys
acquired cystic disease, haemodialysis patients, ultrasonographic evaluation, 236

carcinoma
clinical study of patients surviving over 10 years after nephrectomy, 483
DNA flow cytometry, prognostic significance in parenchymal adenocarcinoma, 364
with extensive involvement of vena cava and right atrium, surgical management, 591
haemodialysis patients, ultrasonographic evaluation, 236
immunotherapy and chemotherapy (review), 465
malignant hypertension due to embolisation (case report), 95
nephrectomy for, analysis of survival and prognostic factors, 125
peri-operative blood transfusion, effect on post-operative survival, 135
haemodialysis, acquired cystic disease and, renal carcinoma in, 236
medullary sponge
extracorporeal shock wave lithotripsy, 352
profound haemorrhage causing acute obstruction (case report), 449
milk of calcium, contraindication to extracorporeal shock wave lithotripsy? (case report), 447
stones *see under* Stones
transplantation
ureteric complications, 139
ureteric stent causing systemic candidiasis (case report), 448
urological complications of live donor transplants, effect of urinary schistosomiasis, 247
transplanted, extracorporeal shock wave lithotripsy (case report), 690
tumours, biopsy under ultrasonic guidance, 7
Wilms' tumour, 230

L

Laparoscopy
pelvic lymph node dissection, 276
in removal of intra-abdominal testis, 105 (point of technique), 208 (case report)
Leiomyoma, renal pelvis (case report), 331
Leukaemia, prostatic infiltration (case report), 329
Light, blue, effect on eyesight, 492
Lipogranuloma, sclerosing, external male genitalia (case report), 575
Lipomatosis, pelvic, comparison with pericystitis plastica (case report), 327
Litholapaxy, percutaneous, impacted upper ureteric calculi, 252
Lithotripsy
extracorporeal shock wave *see* Extracorporeal shock wave lithotripsy
prediction of response to, use of scanning electron microscopy and x-ray energy dispersive spectroscopy, 469
Lymph nodes
pelvic, laparosocpic dissection, 276
retroperitoneal, dissection for testis cancer, chylous ascites following (case report), 688
Lymphogranuloma venereum, thiry-year follow-up (case report), 693

M

Magnesium, extracellular, effects on isolated detrusor muscle function, 262
Megaureters, obstructed and pseudo-obstructed, detected by prenatal ultrasonography, natural history, 322
Melanoma, malignant, male urethra (case report), 687
Mesothelioma of tunica vaginalis of testis (case report), 328
Methotrexate, in combination chemotherapy of locally advanced transitional cell carcinoma of bladder, 161
Micturition
cervical spondylotic spinal stenosis patients, 144
pontine pathology and (case report), 100
Milk of calcium, renal, contraindication to extracorporeal shock wave lipthotripsy? (case report), 447
Mitomycin C, with aminoglutethimide, in treatment of metastatic prostatic cancer, 542

N

Nephrectomy
renal carcinoma, analysis of survival and prognostic factors, 125
total, in children, clinicopathological review, 550
Nephroblastomas (Wilms' tumour)
in adults, 230
clinicopathological study, Ibadan, 318, Erratum 702
New Zealand 1960-1986, 663
Nephrolitholapaxy, percutaneous, in treatment of stones in caliceal diverticula, 478
Nephrostomy tracts, percutaneous dilatation (point of technique), 455
Nephrostomy tubes, resistance to removal (point of technique), 213
Neuropeptides, sensory, obstructed bladder, 373

O

Obituaries
Dix, Victor, 464
Yeates, W. Keith, 578
Occupational urothelial cancer in former iron foundry worker (case report), 95
Orchiopexy
surgical outcome, previously unoperated testes, 90
ten-year review, West of Ireland, 84
Ovaries, granulosa cell tumours, late metastasis presenting as hydronephrosis (case report), 97

P

Paracoccidioidomycosis, prostatic (case report), 329
Pelvic fracture, haematuria after exercise (case report), 207
Pelvic lymph nodes, laparosocpic dissection, 276
Penectomy, total, 'nipple' urethral orifice following (point of technique), 576
Penis
Autoinjector device (point of technique), 211
metastatic Ewing's sarcoma (case report), 206
ossification (case report), 569
verruciform xanthoma (case report), 574
Pepys, Samuel, bladder stones, 509
Pericystitis plastica, comparison with pelvic lipomatosis (case report), 327
Peyronie's disease, treatment with tamoxifen, 648
Photodynamic therapy of bladder using Photofrin II and Photosan, morphological effects, 616
Prazosin treatment of prostatic obstruction due to benign prostatic hyperplasia, placebo-controlled double-blind study, 285
Prevention of vesicoureteric reflux by endoscopic injection (Erratum), 459

Prostate
benign hyperplasia
diagnosis, inter-relation between measurement of serum prostatic specific antigen and transrectal ultrasound, 183
finasteride treatment, urodynamic evaluation, 65
indoramin treatment, 408
localised deep microwave hyperthermia treatment, long-term assessment, 178
prazosin treatment of prostatic obstruction, 285
pre-operative assessment, urethral pressure profilometry in, 280
benign hypertrophy
pre-operative assessment, 43
urine flow rates following treatment with alfuzosin, 58
cancer/carcinoma
advanced hormone-resistant, phase II study of epirubicin, 641
advanced localised, treatment by orchiectomy, radiotherapy or combined treatment, 304
bony metastases, prostate specific antigen prediction, 299
bony metastases, prostate specific antigen prediction, correlation with bone scan, 295
diagnosis, inter-relation between measurement of serum prostatic specific antigen and transrectal ultrasound, 183
hormone manipulation, regression of lymphadenopathy following (case report), 203
local hyperthermia for, effect on cancer cell lines, 529
metastases, combined scleroidal and choroidal (case report), 689
metastatic, treatment with mitomycin C and aminoglutethimide: phase II study, 542
with obstructive uropathy, outcome and prognostic factors, 412
rectal obstruction in, treatment by transanal resection of prostate, 643
secondary carcinoid tumour (case report), 103
spinal metastases, paraplegia following spinal anaesthesia (case report), 445
staging, accuracy of transrectal ultrasound enhanced by prostate-specific antigen, 534
urinary outlet obstruction, impact of irradiation on, 310
endoscopic procedures, clinical information system that enhances use of resources, 634
leukaemic infiltration, paracoccidiodomycosis and nodular hyperplasia (case report), 329
obstruction, due to benign prostatic hyperplasia, prazosin treatment, 285
transanal resection, in treatment of rectal obstruction secondary to carcinoma, 643
transurethral incision, comparison with transurethral resection, 174
transurethral resection
comparison with transurethral incision, 174
irrigation/no irrigation following, 526
Prostate specific antigen (PSA)
correlation with ultrasound-determined prostatic volume in diagnosis of benign prostatic hyperplasia and prostatic cancer, 183
in prediction of skeletal spread of prostatic cancer, 229
correlation with bone scan, 295
with transrectal ultrasound, in staging of prostate cancer, 534
Prostatectomy
pre-operative assessment
survey of urological centres and review of current practice, 43
urinary tract imaging in, 53
see also Cystoprostatectomy
Pubic bone osteotomy, in bladder exstrophy reconstruction, 678
Pyeloplasty, Anderson-Hynes, in treatment of hydronephrosis, long-term follow-up, 121
Pyonephrosis, diagnosis and treatment, 360

R

Radiotherapy, with cisplatin, in treatment of locally advanced bladder cancer, 399
Ranitidine, effect on urine mucus concentration in patients with enterocystoplasty, 30
Rectum, obstruction secondary to carcinoma of prostate, treatment by transanal prostatic resection, 643
Renal colic, abdominal aortic aneurysms presenting as, 496
Renal pelvis, leiomyoma (case report), 331
Rome pouch: pre-peritoneal continent ileal reservoir with hydraulic valve, 514

S

Sarcoma, Ewing's, metastasis to penis (case report), 206
Schistosomiasis, urinary, effect on urological complications following live donor kidney transplantation, 247
Scrotum, scroto-testicular ectopia (case report), 201
Silver nitrate instillations in treatment of chyluria, 660
Sperm, epididymal, retrieval using lachrymal duct probe (point of technique), 105
Spermatic cord, primary carcinoid tumour (case report), 694
Spermatic vein
internal, laparoscopic ligation, 188
left, spontaneous thrombosis (case report), 567
Spinal anaesthesia, paraplegia following, in patient with prostatic metastases (case report), 445
Spine, cervical spondylotic stenosis, voiding dysfunction and urodynamic findings, 144
Stents, ureteric, in renal transplant, systemic candidiasis and (case report), 448
Stones
bladder, Samuel Pepys, 509
calcium oxalate, formation, biochemical studies, 474
in caliceal diverticula, comparison of treatment by extracorporeal shock wave lithotripsy and percutaneous nephrolitholapaxy, 478
determination of composition prior to lithotripsy, use of scanning electron microscopy and X-ray energy dispersive spectroscopy, 469
ureteric
extracorporeal shock wave lithotripsy with Dornier HM-3 lithotriptor, 600
extracorporeal shock wave lithotripsy with Modulith SL 20, 594
impacted, causing ureterocolic fistula (case report), 332
management of impacted upper ureteric stones, results of lithotripsy and percutaneous litholapaxy, 252
pre-vesical, modified prone position for extracorporeal shock wave lithotripsy using Siemens Lithostar (point of technique), 456
ureteric-anal canal fistula secondary to (case report), 330
Struvite crystal growth, *in vitro* inhibition by acetohydroxamic acid, 355

Substance P, effect on detrusor muscle in rats with diabetic cystopathy, 390
Syphilis, ureteric (case report), 99

T

Tamoxifen, in treatment of Peyronie's disease, 648
Testes
  cancer
    chylous ascites following retroperitoneal lymph node dissection (case report), 688
    and cryptorchidism, 656
  crossed ectopic (case report), 201
  denervation in treatment of intractable pain, 417
  intra-abdominal
    laparoscopic excision, 105 (point of technique), 208 (case report)
    localisation by magnetic resonance imaging (point of technique), 215
  mesothelioma of tunica vaginalis (case report), 328
  prostheses, patient's perception, 420
  simple intratesticular cysts, diagnosis by high resolution ultrasonography, 546
  stage I non-seminomatous germ cell tumours, results of surveillance policy, 423
  undescended
    classification (review), 1
    testicular cancer and, 656
    treatment, surgical outcome, previously unoperated testes, 90
    treatment, ten-year review, West of Ireland, 84
Tetracycline sclerotherapy in treatment of hydroceles, comparison with simple aspiration, 76
Tissue expanders, role in vaginoplasty for congenital malformations of vagina, 554
Tumour suppressor genes in urinary tract oncology (review), 585

U

Ultrasound
  effect of vaginal probe on lower urinary tract function, 12
  high resolution, in diagnosis of simple intratesticular cysts, 546
  renal tumour biopsy, 7
  transrectal
    correlation with serum PSA measurement in diagnosis of benign prostatic hyperplasia and prostatic cancer, 183
    with prostate specific antigen, in staging of prostate cancer, 534
Ureter
  disorders, in renal transplantation, 139
  stents, in renal transplant, systemic candidiasis and (case report), 448
  stones *see* Stones, ureteric
  syphilis (case report), 99
  transitional cell carcinoma, ureterocolic fistula due to (case report), 567
Ureteric-anal canal fistula secondary to ureteric calculus (case report), 330
Ureteritis, interstitial, and bilateral hydronephrosis (case report), 691
Ureteroceles, duplex-system, management, 196
Ureterocolic fistula
  due to impacted ureteric stone (case report), 332
  due to transitional cell carcinoma of ureter (case report), 567
Ureteroneocystostomy, use of rat-tail catheters (point of technique), 210
Ureterostomy, upper quadrant end, as urinary diversion in case of solitary kidney with extensive urothelial tumours (point of technique), 453
Urethra
  male, primary malignant melanoma (case report), 687
  'nipple' orifice following total penectomy (point of technique), 576
  posterior, congenital obstruction, endoscopic reappraisal of morphology, 439
  sphincter, electromyographic abnormalities in women with idiopathic urine retention, 22
  traumatic injury in males, long-term results of treatment, 73
Urethral pressure profile, in pre-operative assessment of benign prostatic hyperplasia, 280
Urethral valves
  adult posterior, unusual presentation (case report), 326
  posterior, non-twin siblings (case report), 201
Urethro-vaso-cutaneous fistula, following bladder neck incision (case report), 450
Urinary diversion
  by upper quadrant end ureterostomy, in case of solitary kidney with extensive urothelial tumours (point of technique), 453
  continent, using artificial urinary sphincter, 26
  continent cutaneous, in children, using Mitrofanoff procedure, 669
  continent urinary reservoirs in exstrophy/epispadias complex, 558
  ileal conduit, male and female sexual function and activity following, 33
  Rome pouch: pre-peritoneal continent ileal reservoir with hydraulic valve, 514
Urinary tract
  artificial sphincters, in continent urinary diversion, 26
  infection
    residual urine and, 506
    screening using reagent strips, 314
    urine transparency as index of absence, 191
  lower
    physical effect of vaginal ultrasound probe, 12
    reconstruction in young patients (review), 113
  outlet obstruction in prostatic cancer, impact of irradiation on, 310
Urine
  flow rates, benign prostatic hypertrophy patients, following treatment with alfuzosin, 58
  mucus concentration in enterocystoplasty patients, effect of ranitidine, 30
  residual, and urinary tract infection, 506
  retention
    acute, comparison of suprapubic and urethral catheterisation, 149
    use of botulinum toxin in treatment of chronic retention in women, 387
    women, electromyographic abnormalities in urethral and anal sphincters, 22
  transparency, as index of absence of infection, 191
